

FREMANTLE LINE

# MAJOR IMPACT

5 FEB - 5 APRIL 2021

## Transperth School Services 2021

When students return to school for Term 1 2021, there will be significant changes to train services on the Fremantle Line. These changes will impact staff and students from **Monday 8 February until Friday 2 April**.

During this time, trains will continue to operate, however the frequency of trains between **Showgrounds and Fremantle stations** will be reduced to a 30-minute frequency. In addition, passengers will be required to change trains at Cottesloe Station.

Trains will operate as normal between Perth and Showgrounds stations.

Journey times during this time are expected to take approximately 30 minutes longer and trains will be busier than usual due to the reduced capacity.

All staff and students are encouraged to plan their journey before they travel.

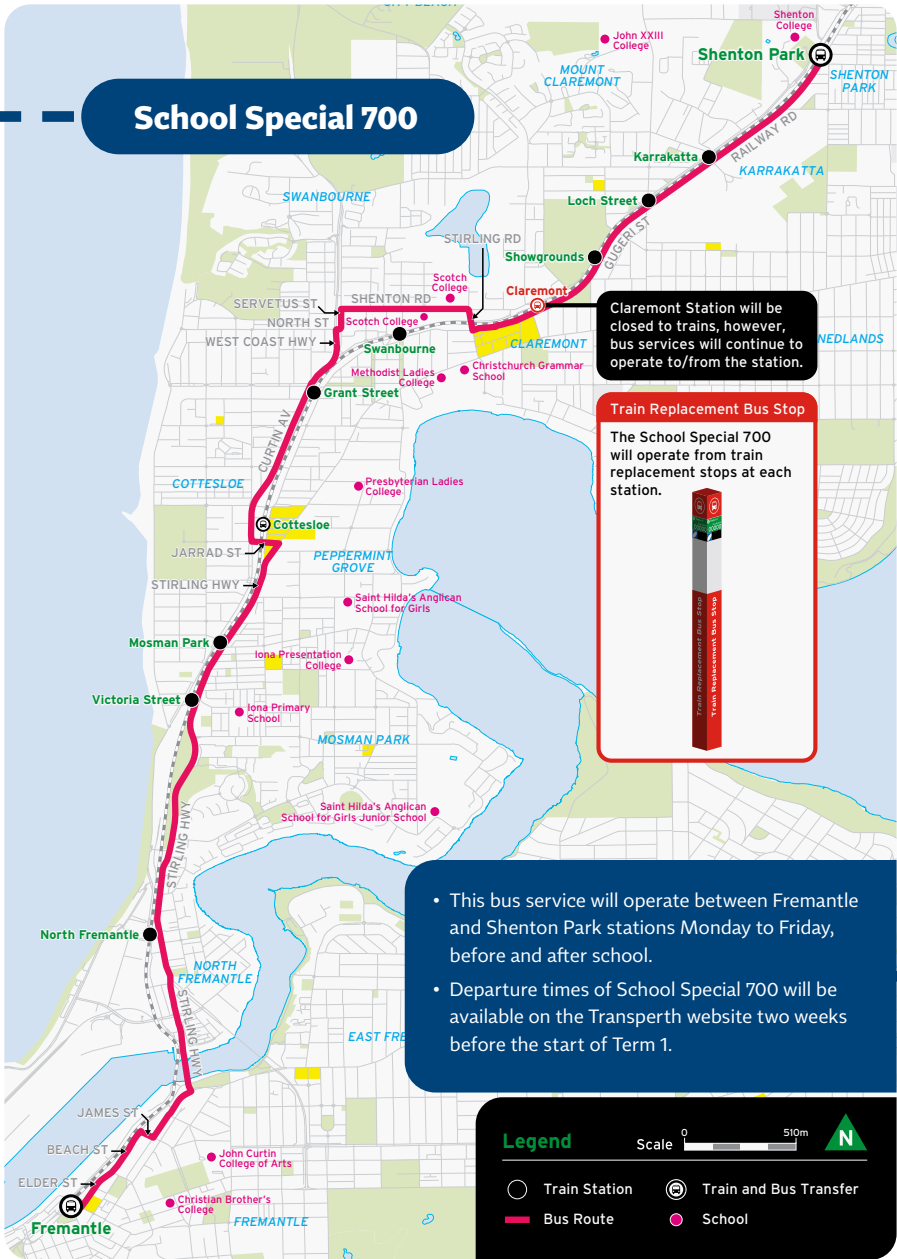

To support students during this time, Transperth will be operating a special bus service between Shenton Park and Fremantle (see overleaf for route details) to supplement train services.

We recommend you sign up to My Account and subscribe to receive notifications of upcoming changes and disruptions.

# School Special 700

- This bus service will operate between Fremantle and Shenton Park stations Monday to Friday, before and after school.
- Departure times of School Special 700 will be available on the Transperth website two weeks before the start of Term 1.

For more information, visit the Transperth website or call the Info Line on 13 62 13
